ABOUT ME

As a Senior Fullstack Developer with over 7 years of experience, I have developed expertise across a broad range of technologies, including Node.js, React.js, Vue.js, Angular.js, ASP.NET Core, Next.js, Tailwind CSS, Spring Boot (Java), and Laravel. My technical proficiency spans frontend and backend development, database design, and software architecture.
I have a proven track record of delivering high-quality, innovative solutions that align with business needs and adhere to tight deadlines. My ability to thrive in both Agile and Waterfall environments has allowed me to collaborate effectively with cross-functional teams to achieve project goals.
In addition to my technical skills, I bring strong communication abilities and a passion for solving complex problems. I am committed to continuous learning, staying up to date with the latest industry trends and best practices to ensure my solutions remain cutting-edge.
You can explore some of my work on my portfolio at https://yemane14.github.io/YemanePortofilio/. Dedicated and results-driven, I strive to deliver efficient and impactful solutions that drive business success.

WORK EXPERIENCE

07/11/2018 – 03/08/2020 Kartum, Sudan
JUNIOR SOFTWARE DEVELOPER RENOSTAR IT SOLUTION PLC

I have worked as a Vue.js and Laravel developer at Renostar ICT Solution for approximately one year, where I honed my expertise in building robust web applications using these technologies. One of my most impactful contributions was developing a **Court System Software for Regional Courts**. This project required close collaboration with developers and stakeholders to gather requirements, design system architecture, and implement the solution. I utilized Vue.js for the frontend and Laravel for the backend, delivering key features such as user authentication, document management, and case tracking. The software significantly streamlined court operations, enhancing efficiency and productivity. This role allowed me to strengthen my skills in writing maintainable code and delivering meaningful, user-focused solutions.
In addition to this, I have contributed to several other projects:
1. **Inventory and Finance Management System**
   - Developed for AFFEOS (Abssinia Foam Factory) in Mekelle as a full-stack developer.
   - Leveraged **ASP.NET** for the backend and **React/Redux** for the frontend.
   - Designed advanced algorithms to optimize inventory and financial operations.
2. **College Management System**
   - Built for Libanos and Betalogo Colleges as a full-stack developer.
   - Utilized **Node.js** for the backend and **React** for the frontend.
   - Delivered a seamless, efficient solution tailored to the institution's specific needs.

These experiences have equipped me with valuable skills in full-stack development, system design, and collaboration. They demonstrate my ability to create software solutions that not only meet technical requirements but also drive operational efficiency and business success.

11/03/2020 – 10/06/2021 Addis Ababa, Ethiopia
SENIOR SOFTWARE DEVELOPER RCNDC SOFTWARE DEVELOPMENT PLC

E-commerce Development Projects:
- **Adimera E-commerce**: Developed a feature-rich e-commerce website using **Node.js** for the backend and **Next.js** for the frontend. My role as a full-stack developer involved designing and implementing a seamless, user-friendly shopping experience. Visit the website: https://adimera.com.
- **Yehagere E-commerce**: Contributed as a full-stack developer, creating a secure and efficient system using **Node.js** for the backend and **React** for the frontend. Explore the platform at www.yehagere.com, developed under RCNDC Software PLC.

Achievements and Skills Gained:
- Spearheaded the development of an e-commerce website that boosted the company's sales revenue by **50%**.

- Collaborated with a cross-functional team of developers and designers to deliver websites that were **user-friendly**, **secure**, and **SEO-optimized**.
- Conducted thorough testing and debugging to ensure smooth website functionality before launch.
- Leveraged **Agile methodologies** to efficiently manage projects and deliver software solutions on time.
- Gained proficiency in essential development tools like **Git**, **JIRA**, and **VS Code**.
- Attended training sessions and workshops to stay updated with the latest trends and best practices in software development.

11/06/2021 – 08/11/2021 Addis Ababa, Ethiopia
SENIOR SOFTWARE DEVELOPER FARKA ICT SOLUTION PLC

As a full-stack developer at Farka ICT Solution PLC, I played a key role in designing and developing an Educational Evaluation System using Laravel and Vue.js. My responsibilities included:
- Collaborating with the team to analyze client requirements and translate them into a comprehensive system design.
- Writing clean, efficient, and maintainable code with Laravel and Vue.js to create a user-friendly and high-performance system.
- Seamlessly integrating the front-end and back-end to ensure smooth functionality and efficient data flow.
- Identifying and resolving technical issues to maintain optimal system quality and performance.
- Implementing robust security measures to safeguard sensitive data, including student and faculty information.

This project provided me with valuable hands-on experience in full-stack web development and deepened my expertise in Laravel and Vue.js. It also enhanced my understanding of the education sector's unique requirements, emphasizing the importance of creating secure, efficient, and intuitive systems for educational institutions. I take pride in my contributions to this project and am eager to tackle similar challenges in the future.

02/08/2021 – 13/05/2023 Nairobi, Kenya
SENIOR SOFTWARE DEVELOPER ADEY MESELESH SOFTWARE DEVELOPMET PLC

As a Full-Stack Developer at Adeymeselesh Software Development PLC, I contributed to the successful development of e-commerce websites using Node.js and React Redux. My key responsibilities included:
- Designing and implementing website features with Node.js and React Redux
- Collaborating closely with design and development teams to ensure seamless front-end and back-end integration
- Writing clean, efficient, and maintainable code to enhance scalability
- Implementing robust security measures to safeguard customer data and sensitive information
- Testing, debugging, and optimizing code for high performance

During my two years with the company, I gained substantial experience in full-stack web development, strengthened my expertise in Node.js and React Redux, and developed a solid understanding of the e-commerce industry. I am proud to have played a role in these projects and am eager to take on more challenging opportunities in the future. You can explore the e-commerce websites I worked on here:

DIGITAL SKILLS

Version Control Systems

Version Control System (Git) ｜ Git,Github,& Gitlab ｜ GIT version control, Linux Command ｜ Git ｜ GitLab CI/CD - Continuous integration and continuous delivery

Programming languages , Technologies and Frameworks

Node.Js, React.Js ｜ Javascript(Nodejs, ExpressJs) ｜ Laravel , VueJS , BootStrap ｜ Multiple PHP (Laravel) Projects ｜ SASS(SCSS) ｜ .Net, .Net Core, .Net Framework ｜ NodeJS, Golang, PHP ｜ NEXTJS ｜ Web Development (React, Nodejs, ASP.Net, Typescript, Javascript, HTML5 , CSS3) ｜ Python Language - Basic knowledge ｜ Solid foundation in Backend Development: NodeJS, NestJS, etc. ｜ React Hooks , React Bootstrap , React Router , React Redux ｜ Frameworks: Spring, Spring Boot ｜ tailwind css

DevOps Technologies

Strong knowledge of CI/CD tools (DevOps) ｜ With 3+ years of experience in Docker ｜ Devops: Docker, Jenkins ｜ Platform : AWS Cloud

Databases

Mongodb / Mongoose ｜ SQL (MSSQL, PL/SQL, MySQL) ｜ PostqreSQL

Project management tools

JIRA: working with Projects and Issues | Atlassian stack (Jira, Confluence, ...) | Discord, Trello, Slack, Teams

Software Development Methedologies

SOLID principles | SDLC in Agile methodologies | Agile methodologies (e.g., SAFe, Scrum) | Development Methodologies: Scrum, Kanban

Operating Systems

Microsoft Windows Server All Versions | Linux (Command line, user level and os knowledge) | Linux-Debian

HOBBIES AND INTERESTS

Gaming and Game Development

Gaming has been a significant part of my life since I was young. I enjoy exploring various genres, but I'm particularly fascinated with strategy and simulation games. Additionally, I like to dabble in game development during my free time, creating simple games and learning about game design principles.

Coding and Personal Projects:

Apart from my professional work as a software developer, I love spending time coding personal projects. Whether it's building small web applications, experimenting with new programming languages, or contributing to open-source projects, programming is not just my career but also my passion.

EDUCATION AND TRAINING

10/10/2016 – CURRENT
SELF-TAUGHT LEARNING AND ONLINE EDUCATION Online

I have been actively engaged in self-learning since 2016, continuously expanding my knowledge and skills through independent study and practical experience. Over the years, I have contributed to numerous projects, leveraging the expertise I have gained to deliver impactful solutions. As a fast learner, I quickly adapt to new technologies and concepts, with my knowledge and proficiency being a direct result of my dedication to self-directed education and hands-on application.

LANGUAGE SKILLS

Mother tongue(s): **TIGRIGNA**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C2	C2	C2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user
